Spectrum Management® Expands Role of Spectrum Tracking SystemsSM

James Van Cleave to Lead New Intellectual Property Licensing Initiative

Carrollton, TX, February 15, 2011 – Spectrum Management, L.L.C. (SM), a global provider of high-value asset location, tracking, and recovery systems delivered through its subsidiary Electronic Tracking SystemsSM, L.L.C (ETS), announced that James Van Cleave, PhD, has been appointed to lead a new Intellectual Property licensing program to be offered by Spectrum Tracking Systems, Inc., (STS) a wholly owned subsidiary of Spectrum Management.

“Spectrum Management, through its subsidiaries, has invested heavily in R&D for more than 30 years and I believe we have developed a portfolio of patents that will be attractive to many suppliers of products and services in the Location Based Services (LBS) market space,” said Jon Gergen, President and Chief Executive Officer. “Our goal is to share this investment through licensing agreements. As the chief architect of our LBS platform, Jim’s knowledge of the technology and the market makes him well qualified to lead STS in this new commercial direction.”

About James Van Cleave

Jim is a co-founder and Executive Vice President of Spectrum Management. He previously led the company's Marketing and Engineering departments. Prior to co-founding Spectrum Management, Jim served as a business consultant, primarily concentrating his practice on assisting communications industry clients in solving both marketing and technical related problems. Jim earned his doctorate degree at Michigan State University.

About Spectrum Management, L.L.C.

Spectrum Management, L.L.C., a holding company, was founded in 1996 and is headquartered in Carrollton, Texas. Its operating subsidiaries are:

Electronic Tracking Systems, L.L.C.

As a recognized leader in the tracking and location industry, ETS has been working internationally for over 30 years with law enforcement agencies and businesses to address and reduce crime - an ongoing, shared community problem. The cornerstone of ETS' long-term success lies in the formation and execution of the ETS Community Coalition, a public/private partnership that is able to effect far-reaching and measurable results by working together with law enforcement and local businesses to reduce crime in the communities it serves. With active Systems installed in over 200 communities, Electronic Tracking Systems has been providing cities with the ability to track,

apprehend, and incarcerate felony offenders, making those communities and neighborhoods safer places to live and to do business.

Spectrum Security Services International,SM L.L.C.

Spectrum Security Services International (S³) is a security compliance and risk management consulting and outsourcing company that offers clients a suite of services dedicated to preserving the safety of team members while protecting the firms' reputation and assets.

Spectrum Tracking Systems, Inc.

Spectrum Tracking Systems is the Intellectual Property subsidiary of Spectrum Management and funds R&D programs and brand development for Spectrum's operating companies.
